Subject: Protecting [Company Name] against emerging cyber threats

Dear [Founder Name],

As the founder of [Company Name], you have worked tirelessly to build your digital infrastructure and protect your intellectual property. However, as scaling companies become more visible, they increasingly become targets for sophisticated cyber-attacks.

I am writing to introduce our Cyber Liability Insurance solutions, specifically designed for high-growth startups. Standard general liability policies often leave significant gaps when it comes to digital risks. Our coverage is built to protect you against:

- Data breaches and ransomware demands.
- Business interruption losses.
- Legal fees and regulatory fines.
- Customer notification costs and crisis management.

We understand that at this stage, capital allocation is critical. Our goal is to ensure that a single security incident does not derail your company's trajectory or reputation.

Are you available for a brief 10-minute call on [Day] or [Day] to discuss how we can de-risk your operations as you scale?

Best regards,

[Your Name]
